Founders

Robert G. Allen

Robert Allen is one of America's most influential financial visionaries of his time, sharing his successful wealth-building techniques with thousands of students for more than 20 years. He has taught more people to become millionaires than anyone else in the world!

His signature book, *Nothing Down*, is the number one, all-time, best-selling financial book. His book, *Multiple Streams of Internet Income: How Ordinary People Make Extraordinary Income Online,* became #1 and #2 on Amazon.com and hit #7 on the New York Times best-seller list within days of publication.

Allen has appeared on hundreds of programs, including "Larry King Live" and "Good Morning America," and has been featured in The Wall Street Journal, Barron's, Money Magazine and Reader's Digest. His challenges include taking a couple from a St. Louis unemployment line and, while using his techniques over the next year, they amassed over $100,000! He has hundreds of equally amazing documented stories to share.

Allen's knowledge is first-hand and highly valuable to anyone who wants to succeed in any aspect of the Real Estate or Information Businesses. He tells it like it is. Why? So you can become the next Real Estate or Information Multi-Millionaire!

Thomas R. Painter

Tom Painter has been a lifelong entrepreneur and compassionate capitalist. Tom began his association with Robert Allen as a member of Robert's road crew 25 years ago. Today, Tom continues his relationship with Robert Allen as President of their companies, Enlightened Wealth Institute and Multiple Streams of Income. Tom's goals for their companies are to influence every student to become a success story and to create raving fans. In addition, Tom's mission is to develop, from within their students, the next generation of "Enlightened Entrepreneurs."

Tom personally monitors the success of EWI students through his creation, The Millionaire Hall of Fame, a reporting site for the profits, charitable contributions and success stories of EWI students. Tom and Robert's goals for EWI students are to generate **$2 Billion in profits, $50 Million in charitable contributions** and create **10,000 Student Success Stories.** Tom views the charities and the profits on the Millionaire Hall of Fame as the Yin and the Yang of living a balanced life. He spends much of his time, energy and resources generating interest in and raising funds for charities and philanthropic ventures.

Tom has purchased millions of dollars in real estate investment properties, generated over a million dollars in network marketing and created millions of dollars in his business ventures. In addition to developing his own "multiple streams of income," Tom has taught thousands of students the principles and strategies of having more than one stream of income. Today, Tom continues to instruct and inspire others on their paths to wealth.

Jeff Schnitter – *Thursday, 1:00pm*
Saturday, 9:30am & 1:30pm

Jeff's career in real estate began by earning a Bachelor's of Architecture. His passion for this field created an opportunity at a leading firm, where he planned to pursue his career as an architect. He soon realized, however, that his entrepreneurial spirit could not be fulfilled as an employee working "inside the box." After much deliberation, he quit his job and was soon exposed to the world of real estate investing and the freedom it could provide. After purchasing his first property, he became a full-time real estate investor. Jeff has purchased millions of dollars of real estate throughout North America. One of the greatest lessons he has learned through real estate investing has been learning how to help others by creating win-win scenarios. This led him to focus on foreclosures and develop specialized investing techniques that he now passes on to his students.

Erik Slaikeu – *Thursday, 1:00pm*

Erik graduated from the Naval Academy with a Bachelor of Science degree. He was commissioned a Second Lieutenant in the U.S. Marine Corps and served his country honorably including deployment in Operation Iraqi Freedom. Upon completion of his Marine Corps duties, Erik became a full time investor. Erik has since purchased millions of dollars of real estate throughout the country.

He is truly an innovator in the Real Estate market, finding and refining even the most unlikely niches. Erik's investing expertise is widespread and diverse and he has already taught at several Enlightened Wealth Retreats and numerous field trainings.

This up-and-coming instructor employs his Marine Corps-derived no-nonsense attitude in the field with astounding results, yet brings an air of humor, youth and ingenuity to the classroom.

Marshall Sylver – *Thursday, 7:30pm*
Friday, 10:00am

Harnessing the power of the human mind has been an obsession for Marshall Sylver since youth. Today, Sylver is not only the leading expert in the area of subconscious reprogramming, he is also a recognized master of interpersonal communication. A hypnotist who has entertained audiences on stage and television, he is also a respected business consultant sought by Fortune 500 companies and the creator of the number one personal development program worldwide.

Yet, the moniker that may best apply is that of a teacher. "Hypnosis is an educational process. It can be taught, but it must be taught right," says Sylver, who believes the quality of our lives is directly related to our communication skills, both internally and externally. "Most people are responding to trance suggestions all the time about who they are or aren't, what they can or cannot do."

Honored Guest Speakers

Jerry Foster – *Friday, 8:30am*
Saturday, 7:00pm

Jerry Foster launched his first successful business venture more than twenty years ago, at the age of sixteen. While his peers worked at minimum wage jobs, Jerry started his own company instead and began realizing the entrepreneurial benefits of more time and more money at a young age.

Today, as a successful Internet entrepreneur and real estate investor, Jerry has specialized in the area of Internet marketing—specifically how to both market existing businesses, as well as launch new online ventures which create consistent cash flow. He helps thousands of fellow entrepreneurs each year by teaching these powerful Internet wealth strategies and helping people from every walk of life maximize their earning potential using the world-wide web.

Phil Hornberger – *Friday, 1:30pm*

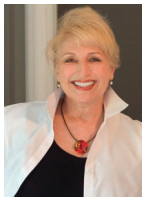
Phil Hornberger is a natural-born investor, heralding from a long and distinguished line of real estate entrepreneurs and contractors. He became immersed in real estate at a young age, learning the many aspects of real estate ownership, management and maintenance.

Working his way through college as the owner of a property management company, Phil bought his first income property shortly thereafter with no money down. He received cash back at closing and hasn't looked back since.

In his senior year, Philip recognized an incredible opportunity and joined EWI to further his understanding and expertise of the real estate industry. Through numerous EWI training programs, Phil has learned not only to invest locally but throughout the country.

Phil now focuses on teaching others the skill and art of successful real estate investing and is a firm advocate of the importance of creating multiple streams of income. He employs his years of investing experience in teaching students how to accomplish more, faster and smarter.

Phil has worked with EWI students for more than six years and plans to continue investing and sharing his expertise for years to come. His widespread knowledge and straight-forward approach garner the respect of fellow investors and students alike.



Karen Nelson Bell – *Friday, 3:30pm*

Karen Nelson Bell, "The 5 Minute Mentor," went from losing her job as an executive show producer to real estate millionaire in 4 months and 9 days, after joining Robert Allen's Protégé Program. She continued to build a real estate empire while helping others to do the same, teaching on behalf of the Enlightened Wealth Institute and Robert Allen Institute. As one of Robert Allen's most successful students, she recently co-authored the best-selling *Nothing Down for Women - The Smart Woman's Quick-Start Guide to Real Estate Investing.* Shortly after beginning to write the book, Duncan Guertin, her husband and love of 17 years, passed away suddenly at the age of 51. Alone but determined, she saw *Nothing Down for Women* become #1 on Amazon.com.

Mark Dove – *Friday, 7:00pm*

Mark graduated with a Bachelor's Degree in Psychology from Coe College, then continued his education at Central Michigan University, earning his Master's Degree in Science Administration.

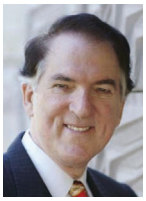
Before establishing himself as a real estate investor, Barnett was a nationally-syndicated television producer whose story was chronicled in the book *The Great Communicators.* For fun, he has served as a scout for a major college football bowl game and even spent two years as a pit crewmember for an Indy Racing League team. This real estate investor's past includes failures as well as successes. Barnett shows you that "It only takes a small dose of success coupled with a marginal shift in thinking to change your destiny."



Ted Thomas – *Sunday, 10:00am*

Ted Thomas is an author and publisher of 11 books sold in four countries. His best-selling audio and Video Home Study Course, SERIOUS MONEY, is considered the benchmark standard for the Tax Lien Certificate industry. Thomas' other publications have been carried in bookstores and libraries for many years. Although Thomas is best known for his comprehensive Home Study Program UP FOR GRABS–MILLIONS IN FORECLOSURE REAL ESTATE, a national best-seller, Thomas also conducts live tours of tax certificate auctions in most states and conducts negotiation seminars on a regular schedule.

From that effort, emerged the most comprehensive program for low risk and high yield returns available in the U.S.A. These discoveries are almost hidden government programs that yield up to 25% interest. Surprisingly, these government-sponsored programs have been almost secret for decades.

Rick Moore – *Sunday, 12:00pm*

He now lives, with his wife and four children, on a vineyard in the Willamette Valley in Oregon.

If you haven't already entered your GAIN, GIFT and Success Stories online, please visit the computer station in the foyer and enter your data to be eligible for the next Enlightened Wealth Retreat! There are computers available with staff members to assist you Wednesday through Sunday.

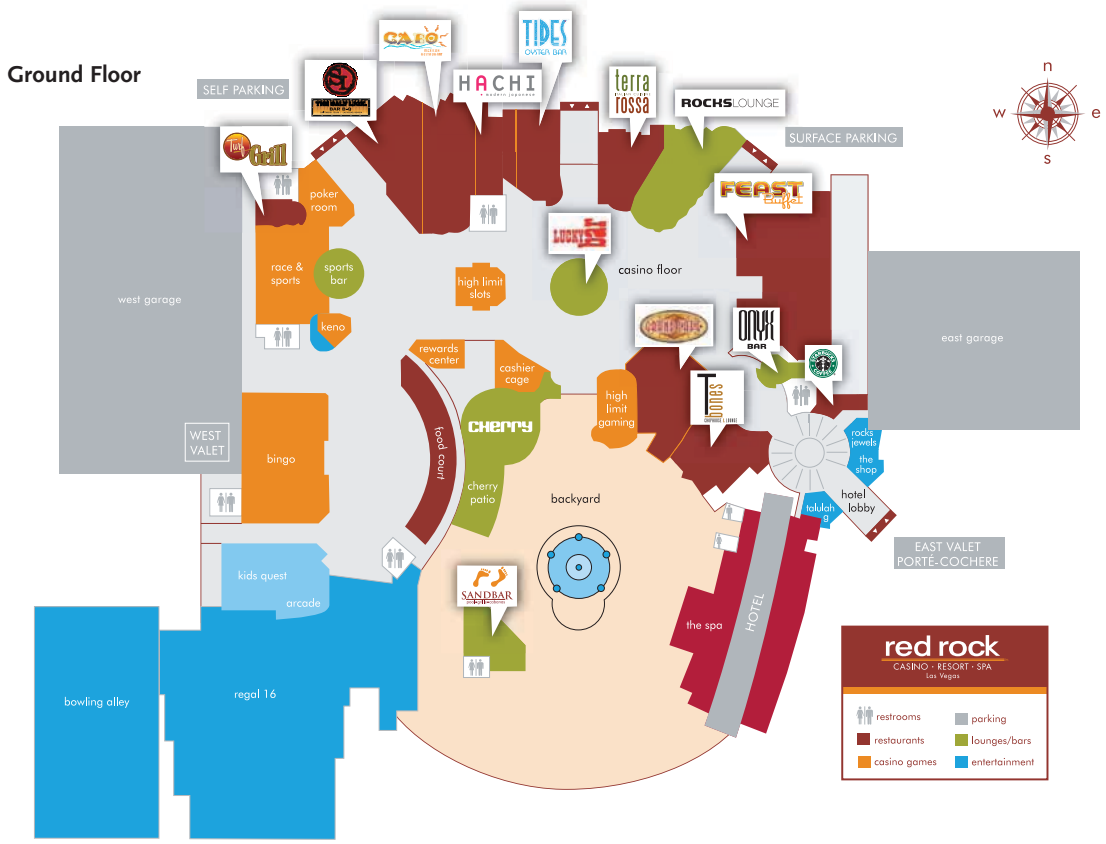
Equipment
Large meetings require very sophisticated, sensitive equipment. Our delivery of messages requires vigilance in maintaining the safety and integrity of all equipment. Therefore, we request: please don't touch, or allow children to touch, any EWI equipment including sound, electronic, lighting, cameras, recording, etc. Thank you.

Hospitality
We want to remind you that some EWI students may be from foreign countries and may have language or cultural barriers. Please be sensitive and extend the same hospitality, friendship and warmth that you would like if you were visiting an unfamiliar place.

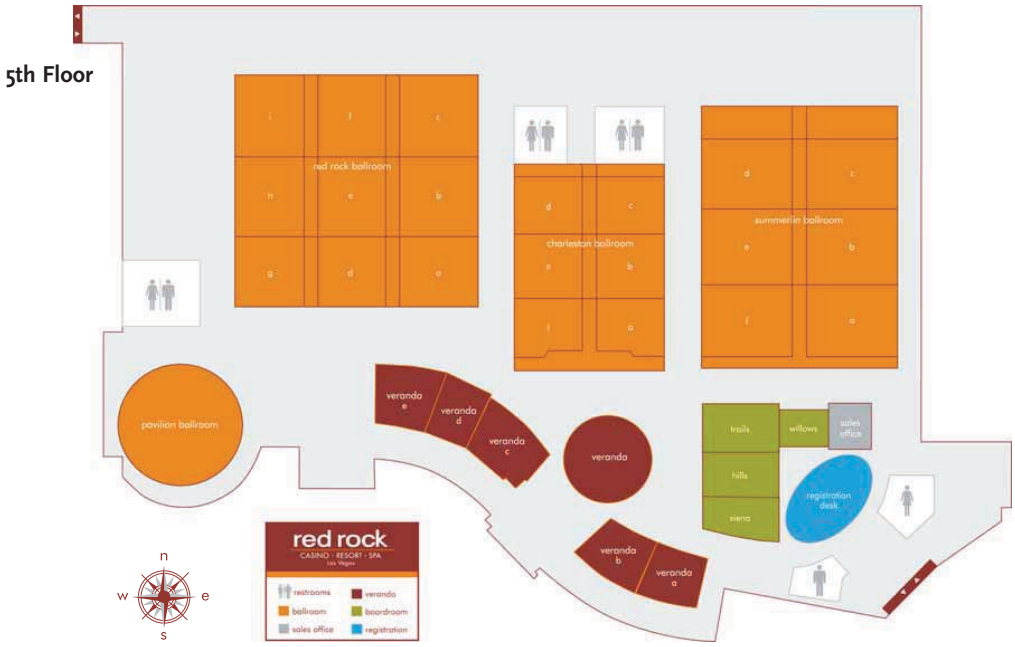
Lost and Found
Lost and Found will operate from the hotel front desk. If you lose or find something, please go to the front desk. Do not leave valuables in the session room or in the foyer during breaks.

Restricted and Open Seating
In order to facilitate leaders and staff who have responsibilities for EWI, some seating areas of the General Sessions are officially designated as "reserved." Please honor these designations. Other than those seating areas officially restricted by ushers, all other seating is open. We request that no seats be saved for others.

Retreat Participation
As you attend the Enlightened Wealth Retreat sessions please be on time! Out of consideration for the speaker, other students and the impartation of crucial information, please make it a priority to arrive to each session with a few minutes to spare.



General Information/Unitus



unitus Our Charity of Choice

Unitus envisions a world where microfinance is available to every individual who needs it. To this means, Unitus is providing life-changing financial services to the world's working poor.

About 3 billion people live on less than $2 a day. On that scale, a loan as small as $50 can help a person in poverty start a business and change their destiny. Examples include raising chickens and other livestock, selling buffalo milk and sewing.

You have the opportunity to help many impoverished families make a better life for themselves – families just like Bhagyamma Vadla's. She has been a microfinance client since 2000. She is 26 years old, is married and they have an 8-year-old son. Bhadyamma used to struggle to find work. Her family frequently went hungry.

With her first loan she bought a buffalo and began selling the milk to neighbors. Subsequent loans helped her purchase a sewing machine so she can take in mending for extra profit. Now, her family eats regular, nutritious meals. Bhagyamma is extremely proud to say that now they can afford to pay their son's school fees. He's the first in their family to ever go to school.

VIP Seating Opportunity:

EWI is proud to support this charity which helps people in poverty help themselves. To do our part, we are offering VIP seating for $95 per person which will go directly to benefit Unitus.

Please see the registration desk to purchase your seats.
